

Natural Disaster Homestead Exemption Renewal Requirements:

Although forms from the Illinois Department of Revenue provide instruction for an annual renewal form for the Natural Disaster Homestead Exemption, the Tazewell County Assessment Office has set policy which does not require this annual renewal.

The exemption will automatically stay on the property until the property is sold, or until such time that the County Assessment Office is notified that the property is no longer the principle residence of the applicant for the exemption.

If you have any further questions concerning this exemption, feel free to contact the Tazewell County Assessment Office at [309/477-2275](tel:3094772275).
