- (3) City or Village Limits. Boundaries indicated as approximately following city or village limits shall be construed as following such city or village limits.
- (4) Railroad Lines. Boundaries indicated as following railroad lines shall be construed to be midway between the main tracks.
- (5) Shoreline. Boundaries indicated as following shorelines shall be construed to follow such shorelines, and in the event of change in the shoreline shall be construed as moving with the actual shoreline; boundaries indicated as approximately following the center lines of streams, rivers, canals, lakes or other bodies of water shall be construed to follow such center lines.
- (6) Parallels or extensions of Above. Boundaries indicated as parallel to or extensions of features indicated in 1 through 6 above shall be so construed. Distances not specifically indicated on the Official Zoning Map shall be determined by the scale of the map.
- (7) Other. Where physical or cultural features existing on the ground are at variance with those shown on the Official Zoning Map or in other circumstances not covered by Sub-sections a through f above, the Zoning Board shall interpret the district boundaries.

**7 TCC 1-3 (b) Rule for Disconnected Territory.** All territory which may hereafter be disconnected from any incorporated area within the County shall be considered to be zoned in the same manner as the territory contiguous with such disconnected territory. Where such disconnected territory is contiguous with two (2) or more districts, it shall be zoned in the same manner as the district which has the largest contacting boundary to such disconnected territory until otherwise classified.
