CORONER

The Tazewell County Coroner is mandated by Statute to investigate the **cause** and **manner** of death of any dead body within the borders of the county when the circumstances of the death indicate any of the following:

- A sudden or violent death, whether apparently suicidal, homicidal, or accidental.
- Any death due to a sex crime or a crime against nature including criminal or self-induced abortions and stillborn infants where there is a suspicion of illegal interference.
- A death where the circumstances are suspicious, obscure, mysterious or otherwise unexplained.
- A death where addiction to alcohol or to any drug may have been a contributory cause.
- A death where the decedent was not attended by a licensed physician within the past 72-hours of death occurs within 24 hours of admission to a hospital (unless the patient has been under continuous care of a physician for a natural disease which is responsible for death).
- A death on the operating table or prior to recovery from anesthesia.
- All deaths in a State institution.
- All deaths of wards of the State in a private care facility or in programs funded by the Department of Mental Health and Developmental Disabilities, the Illinois Department of Alcoholism and Substances Abuse, or the Department of Children and Family Services.
- All deaths arising from employment including industrial poisonings from custody of any law enforcement agency.
- Any death of a fireman who dies within 30 days of working a fire.
- All deaths arising from employment including industrial poisoning from absorption and /or inhalation.
- All hospice deaths.
- All human skeletal remains including bones and decomposed fleshy parts of a deceased human body including grave artifacts.

During a death investigation, it may be the duty and responsibility of the Coroner to cause an autopsy to be performed, including the taking of X-rays and the performance of other medical tests, toxicology tests, and positive body identification as the Coroner deems appropriate.

Special attention is given by the Coroner's office to the family of the deceased in keeping them informed during their grieving process. This care, concern and compassion is also exhibited by the Coroner in providing the option of tissue, organ, or body donation (in those deaths meeting the donation criteria) and in providing special reports in all Sudden Infant Death Syndrome (SIDS) cases.

The Coroner takes charge of any valuable personal property, money, or papers found upon or near the body which is the subject of a Coroner's investigation and delivers the same to those entitled to its care or possession. After the inquisition, the Coroner releases the body to family or friends for burial. If no next of kin or friends exist, the Coroner shall cause the body to be decently buried or cremated, the expenses paid by the County.

All cases coming under investigation prior to the filing of a permanent Death Certificate must be resolved as to the manner of death. This may occur in two ways.

First by holding an Inquest a jury of six individuals would hear testimony and form a verdict according to the evidence presented. This takes place in a public venue. This system has several shortcomings. The public access allows the family of the victim to suffer the reliving of the event. In cases such as suicide this becomes overwhelming. Also the verdict so reached can never be overturned regardless of any new evidence that may appear because of new scientific techniques.

The second approach made law in 2007 provides that the Coroner after investigating all evidence can reach a verdict on the manner of death without inquest. This can be kept Private for the families and is reversible should anything new develop in the case. The vast majority of all cases in Tazewell County are resolved this way.

In any death where the remains are to be cremated, it shall be the duty of the funeral director to obtain from the Coroner a permit to cremate a body. The Coroner, prior to the issuing of the permit, shall complete his investigation of the cause and circumstances of the death. No crematory shall cremate a dead human body unless a Coroner's permit to cremate has been furnished to authorize the cremation.

CORONER- DR. JAMES J. BALDI

Chief Deputy- Rodney E. Wamsley

Administrative Assistant- Glenda S. Grashoff

Among several additional duties, the most important is advising all branches of county government on legal matters which arise and representing them in State and Federal court when necessary.

The criminal prosecution function is accomplished by the State's Attorney and fifteen Assistant State's Attorneys who handle matters in Felony, Misdemeanor, Traffic and Juvenile courts. The Community Services Division administers several community oriented programs, including Deferred Prosecution, a diversionary program for non-violent first-time offenders and has a highly regarded success rate in recovering restitution and reducing recidivism.
